## NORTHERN TRIBUNE.

Entered at the Postoffice at Cheboygan Mich., as Second Class Matter.

SATURDAY, FEBRUARY 4, 1882.

## SENTENCED.

Guiteau to be Hanged.

The Subject to be Dropped June 30th—From the End of Rope.

We stop the press to announce that news has been received by telegraph that Guiteau has been sentenced to be hung, Friday, June 30th, 1882.

**Cheboygan Harbor.**

We are indebted to Major Harwood, in charge of various harbor improvements upon the lakes, for a copy of his annual report for the fiscal year ending June 30th 1881. From which we glean the following in regard to the Cheboygan Harbor:

The amount expended to June 30th 1880, was \$90,874.12 and resulted in securing a channel 200 feet wide with a depth of 13 feet. The amount expended during the year ending June 30th, 1881, was \$3,603.98, which resulted in deepening the channel to 15 feet for 50 feet wide along its axis for nearly the whole length. The amount that can be profitably expended during the year ending June 30th, 1883, is placed at \$20,000 which, if appropriated, it is proposed to expend in completing the dredging for a harbor of 14 feet depth of water. The estimated amount required for the completion of the improvement according to the approved and adopted project is \$50,000.

In speaking of the expenditures of the last ap.ropriation the report says: "owing to a necessary diversion of a portion of the dredging to give room to turn in the harbor, the channel deepening will not be quite completed, and will be merged into the more ample project demanded by the fast increasing commerce of this harbor, requiring much greater facilities than those heretofore afforded. Propellers of the deepest draught on the lakes now seek to enter, and will do so in numbers as soon as sufficient depth of water is given them." To accomplish this he proposes not only to complete the axial deepening of the channel of entrance, but to also dredge out the entire area in front of the steamboat docks to a clear depth of 15 feet, so as to enable the largest propellers to reach and leave the wharves without difficulty and at the same time complete the original project of obtaining clear 14 feet depth for the entire width of the channel. He estimated the cost of dredging the basin in front of the steamboat docks at \$6,000 and for completing the channel to a clear depth of 14 feet at \$14,000, which amount he recommends to be appropriated to be expended during the season of 1882-83. The original estimate made in 1871, for the cost of work to complete the harbor as proposed, was \$395,000. The whole amount appropriated from 1871 to 1881, inclusive, was \$103,000. Add to this the \$50,000 estimated as necessary to complete the existing project and and it would make \$153,000, less than two-fifths of the amount originally estimated.

**Railroad Notes.**

They stopped the work of ballasting Wednesday evening until winter is over. The Algoma being captured by the ice bergs makes it bad for passengers bound for the upper peninsula. Wednesday night the train had a large number of passengers for the other side and they were very much disappointed in not being able to get over. The hotel accommodations at Mackinac City were inadequate to the demands and the conductor had to turn the drawing room car into a lodging room for a number of ladies.

Freight and passenger business continues good at this station. The trains notwithstanding the stormy weather have been arriving very near on time.

Monday the snow drifts at the depot and a short distance above bothered them some. Two engines were employed breaking through the drifts and yet the train was an hour or so late getting out.

C. H. Prouty left Thursday evening to take charge of the business at Mackinac City. Mr. Prouty during his brief stay in Cheboygan made many friends who regret his departure.

## Duncan City Items.

Reported for the Northern Tribune.

Mr. and Mrs. Ames of this place have just lost their youngest child, after an illness of two weeks. This is the second time the bereaved family has been called on to mourn the loss of a child, since Christmas.

Mr. Thompson Smith is slowly recovering his health, though not yet able to leave his rooms.

Mr. Craig, of Craig Smith & Co. of Albany, Mrs. Egbert Smith and Mr. Howland of Toronto have been visiting friends here.

Capt. Pollock has taken down the smoke stack; and other improvements are in progress in the old mill.

The addition to the new mill will contain two edgers and trimmers: making four large edgers in the mill. The new machinery is now being placed, and from the beginning of the coming season, it is confidently expected that the mill will manufacture to exceed 200,000 feet per day.

The machine shop under the management of Henry Roberts is handling considerable heavy work this winter; having already rebuilt the engine and edger for Wm. S. Smith's mill, and are making the two double edgers for the large mill at Duncan City.

Mr. Smith has sold the large engine, that was in the mill that burned two years ago. This will be thoroughly rebuilt, and with another edger and a circular rig to be built here, will go to Grand Marais on lake Superior.

The Duncan City Sabbath school and singing class have raised \$98.00 with which to buy an organ to be placed in the school house.

**The State Press Association.**

The press of the state have been making inquiries as to when a meeting of the State Press association, is to be held. Col. DeLand, of the Saginaw Herald, president of the association, having attended the last meeting of the Northwestern Michigan Press Association, and enjoyed the meeting, and the excursion that followed, so well, suggests that the meeting be deferred until in the summer and then have an excursion in connection therewith. The Bay City Morning Call seconds the motion and names Cheboygan as the place for holding the meeting, closing with an excursion from here to Sault Ste. Marie. The suggestion of the Call is a good one. The press of the state should come to Cheboygan and see the liveliest town of its size in the state. We are satisfied our citizens would see that they were handsomely accommodated and would take pleasure in showing up the advantages of the "Chicago of the North" and there would be no difficulty in arranging for an excursion on a first-class steamer from this place to the Sault, giving the fraternity an opportunity for a delightful ride, seeing the romantic scenery along the Sault River and the largest lock in the world. Keep it moving gentlemen and come to Cheboygan to hold your meeting.

**Burt Lake News.**

Burt Lake Mill Company, composed of Wm. Kneil, C. Miller and J. Parks, with Col. Kinsley as sawyer and mill-wright, have got their mill running nicely and are able to manufacture about 20,000 feet of pine or 16,000 feet of hardwood daily and are now busy on a contract for cutting a million feet of maple and basswood. This mill proves a great convenience to the settlers on that side of Burt lake, as it enables them to obtain any quantity or quality of lumber they desire.

Col. Kinsley expects to put up a grist and feed mill early in the spring near that mill and then will be able to grind all kinds of grain that may be brought. The school, which has been conducted during the winter by Miss May Barbour, has been well attended and given unusual satisfaction.

Altogether the Ohio settlement, as it is called, is a model for a new country neighborhood; such things as discords and little petty jealousies and rivalries are unknown. And then, all the inhabitants are united in all moves that have for their end the common good of the community and we think it safe to predict that if this happy state of things continue, that neighborhood in time will become one of the most prosperous and happy communities in this part of the state.

Large and elegant stock Valentines, at Smyth & Co's.

The Encyclopedia sold at Fexer's book store for \$12.50 is the standard "Chamber's," the most popular of Encyclopedias. The latest edition, in 10 volumes, bound in library style. Don't buy any other until you have seen this—The biggest offer in the book line ever offered. Compare and be convinced.

## STATE NEWS.

Saginaw city owes \$187,800 bonded indebtedness, including school bonds.

The Treasurer of Marquette County, Mich., has resigned, his accounts being \$18,000 short. He has handed over his property to his bondsmen.

At the state hatchery there are 23,000,000 white fish incubating, and at Paris, Mecosta county, the commissioners have about 400,000 trout eggs on the hatching trays.

Col. D. B. Parker of the postoffice department has raised \$500 for the family of Ira Humphreys, the faithful mail carrier who lost his life in the Michigan forest fires.

Prof. John O'Hara of Ann Arbor, one of the oldest and most learned of Michigan's citizens, died in Washington, D. C., Saturday night of a paralytic stroke, at the age of 80.

Mrs. Winn, of Niles, Sunday gave birth to triplets, two girls and a boy, the whole three weighing 16 pounds. One of them died and it was feared the other two and also the mother, would die.

Manistee Times says: It is reported that the F. & P. M. intend taking up the railroad track between the Manistee junction and Ludington, thereby leaving Ludington without any railroad whatever.

The Fraser house at Bay City was closed Wednesday morning for a month or six weeks, while the house is being thoroughly repaired and refitted. Mr. Van Deusen retires from its management, and his successor is not named.

The German Land Association of Detroit has contracted to furnish 16,000 cords of cedar from their settlement, Jacob's Town, above Point St. Ignace, to Chicago parties. Arrangements for the delivery of the cedar have been made.

The bill to appropriate \$10,000 for surveying the route of the Michigan ship canal was introduced in both branches of congress Monday, by Mr. Ferry in the Senate and by Mr. Lord in the House. Referred in each case to the committee on commerce.

News is received of a collision Thursday night of last week on the Lake Shore and Michigan Southern near Sturgis, Mich., which completely wrecked two freight trains including 15 cars and two engines. The carelessnes of an operator was the cause. The loss is heavy.

The balance of cash in the state treasury, Jan. 21 was \$1,393,438.64; receipts for the week ending Jan. 28 were \$74,109.39; payments for same time \$26,709.51; leaving a balance, Jan. 28, 1882, of \$1,440,838.52; of which \$589,000 belong to the sinking fund, \$623,252.60 are held in the trust funds, and \$228,585.92 are available for general purposes.

The shingle manufacturers of Saginaw valley organized a sort of trade association Saturday, with an executive committee, and fixed the present prices of shingles at \$2.50 for clear butts, and \$3.00 for XXX, subject to change by the executive committee from time to time. Saginaw and Bay counties, in 1881, manufactured 304,025,000 M of shingles.

The Port Huron Times of a recent date gives some interesting customs statistics, comparing the figures of the customs houses at Port Huron with those at Detroit for the year 1881, and the values thereof. The footings are as follows: Imports—Port Huron, \$7,603,921; Detroit, \$7,305,933; Port Huron's excess, \$297,988. Exports—Port Huron, \$10,230,448; Detroit, \$1,742,686; Port Huron's excess, \$9,881,568. The tonnage of the vessels entering and clearing in the district of Huron was 2,264,083 tons in excess of Detroit, and the number of immigrants that entered at Detroit during the same period was 76,117, an excess over Detroit of 57,753.

**Fringe Valentines, at Smyth & Co's.**

A fact that John Becker is selling J. G. Meakin's graniteware for a very low price: Enchanted cups and saucers, 40c per set  
Handled " " " 45c "  
Breakfast plates " " 40c "  
Dinner plates " " 45c "

The sales of crockery at Beckers are large. Why? Because he has the largest assortment at the lowest prices. Call and see for yourself.

An elegant line of silk fringe Valentines, at Fexer's.

**The Cyclopedia War.**

In buying a cyclopedia get the latest. Here are some among the hundreds of topics mentioned in the People's Cyclopedia that are not in a foreign reprint made in 1875:

Centennial at Philadelphia, Paris exposition, riots of 1877, resumption of specie payments, electoral commission, administration, of President Hayes, Grant's tour around the world, completion of the St. Gothard tunnel, Edison's electric light, telephone, phonograph, photophone, microphone, audophone &c., assassination of Czar of Russia and of Garfield, census of 1880, and the vast discoveries in all the sciences.

**James O'Connors**

Has a large stock of all the latest improved Sewing Machines, including the new American Light Running Domestic, Davis, etc. Ladies are invited to call and examine his stock, not only of machines but of pictures, picture frames and other ornaments to make home pleasant.

"Pleasant Hours" for March at Fexer's news depot.
